

Aloe Vera Gel

Imagine slicing open an Aloe leaf and consuming the gel directly from the plant. Our Aloe Vera Gel is as close to the real thing as you can get.

The miraculous aloe leaf contains over 200 compounds, including 20 minerals, 18 amino acids and 12 vitamins. A product of our patented aloe stabilization process, our gel is favored by those looking to maintain a healthy digestive system and a natural energy level.

The first to receive certification by the International Aloe Science Council, this rich cocktail of pulp and liquid authenticates this product just as nature intended. Taken daily, either alone or mixed with pure fruit juice, it is one of the best nutritional supplements available!

Aloe Berry Nectar

Aloe Berry Nectar contains all of the vitamins, minerals, amino acids and enzymes found in our Aloe Vera Gel, plus the added benefits of cranberry and apple.

Besides their reputation as a cleanser for the urinary tract, cranberries provide a high content of vitamin C. They are also a natural source of pycnogenol, a powerful antioxidant that is particularly useful in maintaining collagen.

Apple juice is noted for its vitamin A and C content, as well as its potassium and pectin.

You can drink Aloe Berry Nectar with meals or alone. The delicious flavoring is totally natural, prepared from a blend of fresh cranberries and sweet, mellow apples. Added fructose (a natural fruit sugar) sweetens it just enough to please both adults and children alike.

Forever Freedom®

Forever Freedom has combined Aloe Vera with substances that are helpful for the maintenance of proper joint function and mobility in a tasty, orange-flavored juice formula.

We've taken Glucosamine Sulfate and Chondroitin Sulfate - two naturally occurring elements that have been shown to help maintain healthy joint function and mobility - and married them with our stabilized Aloe Vera gel. To this, we've added vitamin C and MSM, a primary source of bio-available sulfur the body needs to maintain healthy connective tissues and joint function.

Glucosamine Sulfate and Chondroitin Sulfate are natural substances that help maintain the structure and health of cartilage, keeping this natural "shock absorber" well hydrated. They also help keep the lubricating fluid within the joint at the necessary viscosity to allow one surface to glide freely over another. As the body ages, it is less able to produce these natural elements of healthy cartilage which can then lead to "wear and tear" on the joints.

Forever Freedom provides the usually recommended amounts of Glucosamine Sulfate (1500mg), Chondroitin Sulfate (1200mg) plus 750mg of MSM and 250g of Vitamin C per 4oz serving.

When combined, G.S., C.S., Vitamin C and MSM provide the first line of defense against deterioration.

As with other FLP products, these nutrients are sourced naturally and are considered to be exceptionally safe. Make Forever Freedom a practical and nutritious way to start your day!
